The times are surely breeding trouble tween this country and Spain. A rupare has long been imminent, and it has only been delayed by a course that many regard as cruelly unjust towards a people who have bravely, and to a certain ex-tent, successfully battled for their inde-

cause, other matters have arisen that may recipitate American intervention. It is not yet clear that the reported Serrano Bismarck bargain for the cession of Porto Rico is a fiction. The Madrid govern ment is deeply indebted to Germany for a recognition by the European powers; and if in addition to that Germany furnishes the means for the suppression of the Carlist insurrection, how is the debt to be paid but by the cession of territory? Secre-

tary Fish may deny it, but there is indubitable evidence that such a cession has at least been contemplated.

The province of Porto Rico has an area of 170 square miles, and contains a population of about 700,000. Its soil and climate are by far the best of all the An tilles, and it produces more sugar than any of the islands of the same archipelago except Cuba. Its mines are rich, although their extent

has hardly been investigated, and Hon. G. McMILLAN, of Habersham altogether the colony is a most desirable prize. But its wealth or its poverty has little to do with the traditional policy of this government in such cases. If we are not prepared to abandon the Monroe doctrine forever, then a cession of Porto Rico or of any of Spain's possessions in this part of the world to an European power, must be firmly resisted and defeat ed. The honor and safety of these United States is bound up in prohibiting any further extension of European power over American soil. The powerful Ger-

> should have none The Virginius affair is a further source of trouble, for it is very far from a settlement. The latest reports say that, not only has Spain neglected to carry out the Fish-Polo protocol by investigating the conduct of her agents, but she has made a demand of indemnity for alleged wrongs on account of fillibustering expeditions fitted out in this country, and the landing of men and munitions of war on the Spanish-American coast. No steps have been taken by the Madrid government towards a reparation for the wrongs suffered by Amercan citizens, either in person or in prop

man-government has no footbold here and

Every stage of our dealings with Spain attests the incapacity of secretary Fish and his agents to cope with the statesmen of Europe. And if we escape from the Spanish complications without a war, and without a loss of honor, it will be either through good luck or a miracle. Thus far the state department has shown neither nerve nor shrewdness in its management of the Spanish questions.

#### Commissioner of Agriculture.

Yesterday the Governor commissioned Dr. Thomas P. Janes, of Penfield Greene county, as commissioner of agri culture. The senate of the next general assembly consenting, his term of office will extend four years.

We understand that there have been sixteen applicants for this very important office, who were recommended by over three hundred citizens of the state. Rev C. W. Howard and Major T G. Holt who were warmly sustained by many friends, withdrew their names some time

Dr. Janes appeared to be "worthy and nended." Among the prop nent gentlemen cordially urging his appointment we note the faculties of the State University, the College of Agriculture and Mechanic Arts, and Mercer University; eleven members of the excutive committee and the secretary of the Georgia State Agricultural Society, together with many of the delegates of its gether with many of the delegates of its onvention at Columbus last year, comprising very prominent and influential entlemen; the secretary, treasurer and steward of the general state grange; Messrs, W. L. Jones, editor and proprietor of the Southern Cultivator, George Hillyer, Wm. McKinley, D. A. Vason, Wm. H. Felton, J. B. Jones, J. H. Echols, and a host of others.

We learn from these recommendation on the public files of the executive department, that for over a quarter of a century Dr. Janes has taken a very active and zealous part in the interests and usefulness of the state agricultural society. Since 1846 he has served it as vice-presiears as the energetic and able president of the "Greene county agricultural and mechanical association," and otherwise at all times and in many ways as popularly identified in the honorable standing and solid advancement of the great commanding interests of agriculture throughalive to its wants, capable and expe rienced in all matters thereto appertaining. The faithful discharge of his public duties is a marked assurance that his anpointment is meritorious and appropriate that it will give general satisfaction to

of the last general assembly. He is represented, moreover, as a very expert, hard-fisted, practical and successful farmer and planter, in fact, has de voted his life to successful farming not confining humself to corn and cotton, but growing clover and the grasses, so as to be "known and read of

In general, it is claimed by those wh know his ability, learning, attainments, thorough executive capacity, that he will reflect honor upon himself, and that the appointment will bring out an efficient administration of the duties of the office. and the grand results of the establishmen of a department of agriculture.

We believe him to be worthy, qualified and suitable in every respect for the important position for which he, from mong many meritorious applicants, has ernor of the state.

And now the Howard University is in bad way. It seems to keep step with the Freedmens' Bank. At one time it had 600 pupils; last year, only 120, of whom 90 were deadheads: It has without pay, to teach the colored idea

But the supply has been so great in the past that the public taste has palled. It will be difficult to stimulate the anger of the northern people this year with more manufactured outrages. The republicar editors, if they had a particle of enter prise left in them, would invent a new juggle. But it is evident that they have ost heart in the canvass, and that the old threadbare trick will be pressed into ser-vice once more for want of something

The Americus Republican proposes to ublish the full text of the civil rights oill in every issue that appears before the day of election. It does this more par ticularly for the benefit of Jack Brown who is now the standard bearer of th ocial equality party. And this reminds us that we have not given Col. #### The Great State Fair.

It is pleasing, says the Griffin News, to turn from the great cess-pool of politics and take a look at our material interests, which are to be so largely represented in the state fair at Atlanta this fall.

Albert G. Brown, of Mississippi, ex overnor fand ex-senator, was appointed rigadier general of the state militia when ally nineteen years old; was elected to be legislature before he was twenty-three, the legislature before he was twenty-three, and to congress at twenty-six. At twen-ty-eight he was chosen circuit judge of his district, and while on the beach, in his thirtieth year, was made Governor of the state. From that time forward he became one of the foremost and ablest of southern politicians an I took high rank as a senator in congress. His official career closed with the rebellion in 1865. For thirty-three years he was continually in high official and political station.

Like Carlyle and Ruskin, this veteran

looks back upon the work of his life with regret, and delights his imagination with pictures of the happiness to be found in other callings than his own. There is much, however, in his advice to young men to eschew officeholding, that descrives their consideration. In a letter lately published in the Corinth, Miss., Herald, Governor Brown says:

o stick to mother earth.

This morning I watched Com anderbilt as he walked down the bal ony to join a whist party in the elegan rivate club room built by the United tates Hotel for its guests. The old rail road king leans heavily on his cane, and walks as if this was his last summer at Saratoga. His weight goes heavily one foot, the foot slides forward slow the cane feels its way ahead, and th the body moves heavily and slowly alo When the octogenarian sits down his si ver head leans forward, one hand rests or his cane and the other falls on his knee As he thus sits a great crowd pass b with reverential look

The other day a little three-year-old modore as he sat leaning over, and poothing her hand cautiously ld man's silver hair, she said

"Why, ou has dot funny hair. she inquired, "What makes it so white the first ballot. "Oh, the frosts of many winters m ittle baby," replied the Commodore "Didn't it hurt ou?" asked the little thing in childish amazement. It was the first time she had ever noticed gray hair

Near the Commodore is his oldest and favorite son, William II. Vanderbilt, on whose shoulders all the cares and responsibilities of a revered father will rest. William H Vanderbilt has been schooled to take his father's place, and when the Commodore dies he will succeed to the Presidency of the New York Central and to the possession of the bulk of hi father's fortune, ranging from fifteen to fifty millions. William H. Vanderbilt sturdy, strong man, about fifty years vidual features, large mouth, and is a man of power and character, and when his mind has full scope he will make combinations and carry out gigantic plans which will astonish the admirers of the old Commo-dore. #### Sale of the Advertiser-Republica

The announcement that the Savannah Advertiser-Republican would be sold at sheriff's sale yesterday morning, attracted a crowd of some fifty or sixty persons to terested in liens and mortgages upon the courthouse, most of whom were interested in liens and mortgages upon the establishment. The sale was made under a mortgage fi fa., issued out of the Superior Court in favor of the Merchants' National Bank against Beard & Kimball, for the sum of \$4,500 with interest and costs, although there are other mortgage upon the concern amounting to about as much more, and not including liens of some of the late employes for wages.

At half past eleven o'clock sheriff Ro

nan announced the following property as levied on under the said mortgage, and then at once offered the same for sale One double cylinder printing press, 1 proof press, 2 imposing stones and stands, 2 stand galleys, 10 double stands, 2 single stands, 1 cabinet and 20 cases, 68 cases of type, 2 pair cabinet cases, chases, galaxy. leys, rules, leads, composing sticks, 25 kerosene lamps, 1 stove and pipe, 1 case rack, 14 cases assorted type, files of the Savannah Daily Advertiser, and all other property of the Savannah Daily Advertiser contained in the building Nos. 93 and 95 Ray street and 95 Bay street.

The first bid was \$500, which was run the first bid was \$500, which was run
p \$500 at a time until \$6,000 was called,
the bidding being confined to a few gentlemen. At the last named sum the bids
ceased, and if was apparent that the
maximum amount which any one desired
to invest had been reached. After dwelling for the usual time wron this develing for the usual time upon this figure, the property was finally knocked down by the sheriff to Mr. William Swoll, the ast bidder, for \$6,000.

As this amount, we understand, does not even cover the mortgages on the Ad not even cover the mortgages on the Advertiser, the mortgages of the Republican, together with various other claimats, are left out in the cold.

It is probable from what we hear, though nothing definite is known, that the paper will be revived in a short time and will be managed by a stock company.—Swannak News. THE CAMPAIGN OF 1874

Our influence is limited because of our povery.

Last year, said the speaker, I came north and appealed to friends, who gave me enough to build the chapel, but it is unfluished, and we need money to complete it. The colored man is naturally susceptible to religious. In you don't give him one he will make one for himself. Then he wants to worship God with proper surroundings, in a temple expressly prepared for Him, and he is very nice on this point. To reach his mind we must operate on his senses. We must encourage and cultivate his love for the beautiful, and after a while he can be led to a just appreciation of the glories and the beauties of a true religion.

At the close of the discourse a handsome sum was collected from the congregation to aid the preacher in completing his little chapel and in building a school house in Atlants.

Honestly speaking, these are all the benefits that can come out of the transaction, and they are all on our side; so we do not see what remains for Mr. Mullett, except satisfaction of accomplished daty. But even if that gentleman had any benefit that we cannot discover now, we can afford, having the share of the lion, to allow him to pick a few crumbs. If these crumbs are clean, we say he is welcome to it; and as long as we have not the proof that they are dirty, we will not insultingly declare that in picking them he did dirty his fingers.

DR. CALHOUN'S LIVER PILLS. AM engaged in the manufacture of the Celebrated Family Medicine, known as the Calhoun Liver and Anti-Bilious Pills, under the supervision and assistance of Dr. Calhoun himself. This Pill has been in use for the last 35 years, and has taken precedence over all other Family preparations by all that have used them. Thousands would certify to their great value if necessary. One fact should supercede any amount of certificates, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prison cates, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prison for over seven years, when the number of prisoners ranged from 20 to 70, laboring under all the diseases incidental to this climate. With but few exceptions they have all been treated with this Pill, and astonishing to say during that long period not a solitary death occurred under his treatment. Stoves, Hollow-ware, Grates, J. W. GURLEY, M. D., Surgeon in Charge. WITH THE OTOSCOPE FOR EXAMINING the Ear, the Opthalmoscope for examining the Eye, Laryngoscope for the Throat, he is able to detect, and treat successfully, troubles that have heretofore been considered incurable. As to his success in the treatment of Eye diseases, he invites attention to the following certificates:

ANDERSON, S. C., August 1, 1873.

This is to certify that I have been blind for the last three years, during which time! have spent several hundred dollars in trying to obtain relief, but without success. I had almost despaired of ever being able to see, when Dr. J. W. Gurley informed me than my case was Cataract, and by an operation, he believed that he could restore my sight consented, and on the 17th of Februarylast, he operated upon my eyes. On the seventh day after, I was able to distinguish objects at a distance. My sight has improved ever since, and now (August 1st) feel that, with the aid of my glasses, I can sea as well as any person of my age (67), and am able to attend to all my business—which tenders me a happy man, being brought from darkness to light.

MATTHEW SUFES.

WILLIAMSTON, South Carolina.

Dr. Gurley operated on my grandson for crossed eyes, and I can testify to his skill as an Eye Surgeon, by the happy results obtained in this case. The borrible deformity is completely removed, and the young man is rendered happy.

BRADLEN'S MILLS, Abbeville C. H., S. C.

I was operated on for Cataract by a skilled surgeon of Augustas. Ga., and after being under his care for about four weeks, was discharged in a worse condition than when I went to him, inflammanton having deprived me of the amount of vision I had before the operation. In this condition I consulted Dr. J. W. Gurley, who took my case in hand, and on the lifth day after, I was able to return to my family with the eyesight restored. Dr. Gurley's method of operating and after treatment are different and less painful than any I have undergone.

Other references can be furnished as to patients already cured under his treatment.
